Product Description

The Netis NC63 Dual-Band WiFi Router delivers high-speed wireless performance with simultaneous 2.4GHz 300Mbps and 5GHz 867Mbps connections, ideal for streaming, gaming, and multi-device networking. Equipped with MU-MIMO and beamforming technology, it ensures stable, efficient, and extended coverage. The router features full Gigabit ports, supports multiple modes including AP, Router, Repeater, and Client, and provides intelligent bandwidth control for optimized network performance. Managed easily via the BeeWiFi app, the Netis NC63 offers advanced internet access control and secure, reliable WiFi for home and office environments.
