Product Description

The Netis NX10 Dual-Band WiFi Router delivers ultra-fast wireless performance with up to 300Mbps on 2.4GHz and 1201Mbps on 5GHz, perfect for gaming, streaming, and multi device connectivity. Powered by a 1GHz processor and equipped with 4 high-performance fixed antennas, it ensures stable, long-range coverage. Features like Gigabit WAN + LAN ports, FOTA, TR069, remote access, and backup & restore provide flexible network management, while BeeWiFi app support enables driver-free setup. With intelligent bandwidth control and secure internet access, the NX10 is an ideal router for home and office networks.
