MR-US10K-H – 10kW Power Backup System Nepal

Offer Price: Rs. 168,700

Original Price: Rs. 210,876

Attributes

Product Description

Marsriva MR-US10K-H

Marsriva MR-US10K-H is a 10 kVA / 10 kW online UPS built for mission-critical systems, data centers, and enterprise setups. It delivers pure sine wave power, instant 0ms switchover, and wide input voltage tolerance. Equipped with intelligent battery management and comprehensive protection, it ensures uninterrupted, high-efficiency backup for servers and infrastructure.

Key Features

- **10kVA / 10kW Capacity** – Suitable for heavy-duty applications
- **Online Double Conversion UPS** – Continuous clean power supply
- **0ms Transfer Time** – No interruption during power failure
- **Pure Sine Wave Output** – Safe for sensitive electronics
- **High Efficiency up to 95.5%** – Energy saving operation
- **Wide Input Voltage Range (110–300VAC)** – Works in unstable power areas
- **Power Factor 1.0** – Maximum usable power output

- **Intelligent Battery Management** – Longer battery life
- **LCD Display Panel** – Real-time monitoring
- **Multiple Protections** – Overload, short circuit, overcharge
