Product Description

The Netis NR100G Gigabit Router delivers high-speed, reliable networking with 1-3 variable WAN ports and 1 fixed WAN port, supporting full gigabit bandwidth for seamless internet and IPTV transmission. Easily manage your network remotely using the BeeWiFi app, while unified AP management ensures smooth connectivity without additional AC controllers. Ideal for home and office networks, the NR100G provides stable, high-performance, and multi-WAN networking for modern bandwidth-intensive tasks.
