Product Description

The Netis ST3108C is a reliable 8-port 10/100Mbps RJ45 switch designed for seamless network connectivity. Featuring Store-and-Forward transmission and a 2K MAC address table, it ensures stable, high-speed data transfer for home and office networks. Its half-duplex 10/100Mbps ports provide flexible and energy-efficient networking, making it perfect for small-scale setups, IoT devices, and desktop connectivity.
