Product Description

Netis ST3116P 16-Port 10/100Mbps RJ45 Switch delivers reliable network performance with 3.2Gbps switching capacity and IEEE 802.3x flow control. Featuring an 8K MAC address table and Green Ethernet technology, it ensures energy-efficient operation and stable connectivity for home, office, or small business networks. Compact and durable, this switch provides fast, seamless wired connections for multiple devices with minimal power consumption.
