Product Description

Netis ST3124GS is a high-performance 24-port Gigabit RJ45 switch designed for fast and reliable network connectivity. With 48Gbps switching capacity and a 16K MAC address table, it ensures smooth data transmission for offices, businesses, and network setups. Supports 10/100/1000Mbps half-duplex ports for versatile networking, delivering stable, efficient, and energy-saving performance. Perfect for seamless LAN expansion and high-speed networking solutions.
