Product Description

The Longse NVR3332K4 is a high-performance 32CH 4K NVR with 4HDD support, designed for professional IP security systems. Featuring H.265/H.264 video compression, 320Mbps bandwidth, and up to 12M recording, it ensures smooth, high-quality surveillance. Its robust metal housing, UK plug compatibility, and 100-240V AC power input make it reliable for large-scale CCTV setups. Ideal for homes, offices, and commercial spaces requiring advanced 4K network video recording.
