Product Description

The Techlink TL-190 19 Inch LED Monitor is a compact and energy-efficient display designed for office work, study, and everyday home use. Featuring a 19-inch HD LED screen with 1366×768 resolution, it delivers clear visuals and comfortable viewing for documents, browsing, and multimedia. With HDMI and VGA connectivity, this monitor easily connects to desktops, laptops, and other devices, while the 5ms response time and 60Hz refresh rate ensure smooth performance for videos and casual tasks. Its slim, lightweight, VESA-mountable design saves space, and built-in stereo speakers add convenience, making the Techlink TL-190 an ideal HD LED monitor for office and home setups.
