Product Description

ANTIGRAVITY A1 8K 360 Drone (Explorer Bundle)

Ultimate 8K 360° Capture, Immersive FPV & Extended Flight

The **ANTIGRAVITY A1 8K 360 Drone Explorer Bundle** takes your aerial creativity to the next level. Featuring the **dual-lens 8K 360° camera**, it captures everything around you for fully immersive footage, letting you reframe shots in post-production while keeping the drone invisible.

With **Vision Goggles**, **Grip Motion Controller**, and **extra batteries**, this bundle provides extended flight time, complete first-person immersion, and total creative freedom—perfect for content creators, travelers, and drone enthusiasts seeking the ultimate 360° experience.

Key Features

Feature	Details
Camera	Dual-lens 8K 360° camera for full immersive photo & video capture
Video	8K 360° recording; reframe to standard, vertical, or cinematic formats
FPV Experience	Real-time 360° view with Vision Goggles; head-tracking support
Controls	Grip Motion Controller with intuitive “point-to-fly” navigation
Stabilization	Advanced electronic stabilization for smooth cinematic footage
Flight Time	Up to ~39–50 minutes (Explorer Bundle with extra battery)
Weight	Approx. 249g per battery configuration
Safety Features	GPS positioning, obstacle awareness, Return-to-Home
Connectivity	High-speed wireless transmission between drone, goggles & controller
Software	Antigravity app for editing, reframing & AI-assisted highlights
Design	Foldable, compact, travel-friendly drone body
