Product Description

Product Description

The **Xiaomi 17 Ultra (16GB/512GB)** is Xiaomi's flagship smartphone, engineered for users who demand the very best in performance, photography, display technology, and premium design. It features a stunning 6.9-inch Xiaomi HyperRGB OLED display with an adaptive 1Hz–120Hz refresh rate and an impressive 3500 nits peak brightness, ensuring exceptional clarity, smooth visuals, and outstanding outdoor visibility.

Powered by the cutting-edge Qualcomm Snapdragon 8 Elite Gen 5 processor, built on an advanced 3nm architecture, the Xiaomi 17 Ultra delivers flagship-level speed, AI capabilities, gaming performance, and energy efficiency. Paired with a massive 16GB RAM and 512GB storage, it effortlessly handles multitasking, professional workloads,

gaming, and content creation.

Photography is the centerpiece of the Xiaomi 17 Ultra. Its advanced Leica-engineered triple-camera system includes a 200MP Leica telephoto camera, a 50MP Leica main camera, and a 50MP Leica ultra-wide camera, allowing users to capture professional-quality images in virtually any scenario. On the front, a 50MP autofocus selfie camera delivers sharp, detailed selfies and premium-quality video calls.

The smartphone is equipped with a large 6000mAh battery designed to provide all-day endurance even under heavy usage. With 90W HyperCharge technology, users can recharge the device quickly and get back to work or entertainment with minimal downtime.

Additional premium features include IP68 dust and water resistance, Xiaomi Shield Glass 3.0 protection, Ultrasonic in-display fingerprint scanning, 5G connectivity, and support for dual physical SIMs and eSIM configurations. Running on Xiaomi HyperOS 3, the Xiaomi 17 Ultra offers a refined, intelligent, and seamless user experience.

The Xiaomi 17 Ultra is built for professionals, creators, and power users seeking flagship photography, elite performance, and uncompromising premium features.
