Product Description

The Lexar Mini Go 1TB Portable SSD with HUB delivers exceptional speed and portability, making it the perfect solution for high-performance storage on the go. With up to 1050MB/s read and 1000MB/s write speeds, this portable SSD ensures ultra-fast data transfer for seamless performance, whether you're working with large files or need quick backups. Designed with a compact mini size and a 1TB capacity, it offers maximum storage in a convenient, easy-to-carry design.

The plug-and-play convenience of the Lexar Mini Go SSD ensures a hassle-free setup with no additional software required. Its IP65 rating guarantees dust and water resistance, making it a durable choice for outdoor and travel use, even in harsh environments. Built for speed, the Lexar Mini Go SSD supports high-performance data transfers, whether for gaming, video editing, or file management. Highly compatible with various devices, it works seamlessly with PCs, Macs, smartphones, tablets, and more.

Perfect for on-the-go storage, the Lexar Mini Go 1TB Portable SSD is a must-have for users looking for fast, reliable, and portable storage solutions. Ideal for

professionals, creatives, and anyone needing fast, secure storage for photos, videos, and documents.
