Product Description

The Lexar 1TB Mini Go Portable SSD offers blazing-fast performance and ultra-portable storage in a compact design. With up to 1050MB/s read and 1000MB/s write speeds, this portable SSD delivers lightning-fast data transfer, ensuring quick access to your files, photos, videos, and more. Its 1TB capacity provides ample storage for all your essential data, while its mini size makes it easy to carry anywhere you go.

Built for speed, the Lexar Mini Go Portable SSD is ideal for users who need high-performance storage for tasks like video editing, gaming, and large file transfers. The plug-and-play convenience means no software is required, making it simple to use with PCs, Macs, smartphones, and tablets. The IP65 rating ensures that the drive is dustproof and water-resistant, making it perfect for outdoor storage and use in harsh environments.

With its high compatibility across devices and its ability to store large files securely, the Lexar 1TB Mini Go Portable SSD is the perfect solution for anyone

seeking fast, durable, and portable storage. Whether you're on the go or need secure storage for your digital content, this SSD drive delivers reliable performance for your everyday storage needs.
