Product Description

Product Description

The Dell 15 DC 15250 Intel Core i5-1334U Laptop is a dependable everyday laptop designed for students, professionals, and home users who need smooth performance for work, study, and entertainment. Powered by the 13th Gen Intel Core i5-1334U processor, 8GB RAM, and a fast 512GB SSD, it delivers responsive multitasking, quick boot times, and efficient performance for office applications, web browsing, online meetings, and daily computing.

Its 15.6-inch Full HD display with a 1920 × 1080 resolution offers crisp visuals and vibrant clarity, making it ideal for productivity, streaming, and video conferencing. The slim and modern design ensures portability without compromising performance, while Windows 11 provides a secure and user-friendly experience with the latest productivity features.

Whether you're working from home, attending online classes, or handling everyday tasks, the Dell 15 DC 15250 offers reliable performance and excellent value.
