Product Description

Marsriva MR-UF1250 is a 1250VA / 750W smart line interactive UPS with AVR to protect PCs, routers, CCTV, and home or office electronics. It features LED indicators, dual 12V/7Ah batteries for longer backup, instant power switchover, and built-in protection against overload, short-circuit, and over-discharge. Compact, durable, and reliable for uninterrupted power during outages.
